VOL. XXVII.

HOPKINSVILLE, KENTUCKY, THURSDAY, SEPTEMBER 28, 1905.

NO. 116.

New  
Fall  
Styles!

All the new fall shapes in hats are here and they are as pretty a bunch as you have seen for years. At \$3.00 we have "The Imperial" in soft and stiff, in all the new shades. And right here we want to say "The Imperial" is a three dollar hat, not a hat at three dollars.

At \$3.50, \$4.00 and \$5.00 we have the new shapes in Stetsons. Come and see our new fall supply of these pretty hats.

## STANDARD OIL CASES ARE OFF.

Circuit Court Begins With Judge Bush On Bench.

## PETIT JURY CHOSEN.

Great Difficulty Experienced In Getting a Panel From Names Drawn.

Judge C. H. Bush was on yesterday appointed Circuit Judge, to serve during the absence of the regular judge, who went to Murray as a witness for the prosecution in the Holland case.

The full list of petit jurors has not yet been made up, a number of those summoned failing to appear. There were fifteen chosen Tuesday and another lot of names had to be drawn from the wheel. Three more were selected yesterday and the list will be completed this morning. Those accepted are: F. M. Morris, M. H. Dukes, T. M. West, T. D. Jameson, W. E. Adcock, Bob Dukes, J. M. Anderson, M. D. Hord, R. M. Anderson, Ed Pennington, L. B. King, Ushaw Buckner, John Boxley, J. R. Johnson, B. P. Armstrong, G. B. Underwood, J. A. Easton, C. W. Smithson and Sherman Henderson.

Several cases have been disposed of and a number have been continued until the next term.

Forty-one indictments against the Standard Oil Company, in which the company was charged with retailing without a license, were dismissed.

## SAD NEWS

Received Tuesday by a Visiting Young Lady.

Miss Bessie Anderson, who has been the guest of Miss Lillian Gary for some time, was greatly shocked Tuesday on opening a telegram which apprised her that her brother Dr. D. C. Anderson, had been taken down with yellow fever. Since the fever made its appearance at Tallahah, La., the young physician had been devoting his most earnest efforts in attending to the stricken. The message came from Miss Anderson's mother who was in attendance on her son, and is supposed to be immune. The young physician's father is at Hamburg, Miss., aiding the stricken people there. Mr. Geo. E. Gary says that it would be unsafe for his daughter's guest to go to her brother and she will remain here for the present.

## TEN ADDITIONS

Revival at Olivet Baptist Church Closes.

The protracted meeting at Olivet Baptist Church, Howell, closed Tuesday night. There were 10 additions to the church. The pastor, Rev. H. C. McGill, was assisted by Rev. Lloyd T. Wilson, the able and eloquent pastor of the East Baptist Church, Louisville. The church was greatly revived and benefited. It now has a live membership of 237 members.

## ARREST FOLLOWS

Difference of Opinion as to Which Had Bill.

Ira Litchfield, a young farmer living near Church Hill, was arrested on complaint of Chas. Dattilo yesterday, who charged that he obtained change for a \$20 bill without surrendering the bill. Protesting that he had done so, he kept the change when Dattilo had him arrested. He gave bond and the case will be investigated by the grand jury.

## COMPANY D ORDERED OUT

Will Attend the Trial of Polk Fletcher and Guy Lyon.

## OFF FOR RUSSELLVILLE.

Capt. Clark and Thirty Men Left Last Night For Scene of Action.

By Order of Gov. Beckham and upon request of Judge W. P. Sandige, of the Logan circuit court, two companies of infantry and a detachment of battery of the State Guard have gone to guard and protect W. R. Fletcher and Guy Lyon from mob violence during their trial for alleged assault upon Mary Gladdier. The cases are to be called in the Logan circuit court today.

The troops designated for the duty are the Hopkinsville and Bowling Green companies of Infantry and fifteen men of the Frankfort battery. They will be under command of Maj. Edward Watt, of Bowling Green, of the Third regiment.

This is the second trial of Fletcher for the crime, troops having been sent to Russellville in August to protect him. He was tried at a special term of court and the jury disagreed. Both men are in jail at Bowling Green.

Capt. E. W. Clark and 30 men from Co. D. left on a special train at 10:30 last night.

## WHERE IS HERBERT?

Left Sunday and Has Not Been Heard From.

Prof. Herbert, who organized classes in physical culture here two weeks since, left the city last Sunday and has not returned. When he left he remarked to Mrs. J. D. Hill, with whom he was then boarding, that he was "going down the road to see his girl." He is supposed to be somewhere sick, as he has, so far as we can learn, communicated with no one here. He has about 75 pupils. As he left his trunk and belongings at the Hill House, there is no explanation of his absence. It is said he was seen in Nashville Monday.

## CLAIM THE COUNTY.

Democratic Candidates Are Greatly Elated Over Prospects of Victory.

The Democratic candidates filled their speaking appointments at Lafayette and Benmettstown yesterday and will go to Howell and Kennedy to-day and to-night. The crowds are getting larger and more interest is being shown as the canvas progresses. The Democrats are growing more confident every day and are claiming the county. A good organization is all that is needed to sweep the county.

## Nothing Known Here.

A negress on a colored excursion between Hopkinsville and Louisville was killed Sunday night about 10 o'clock near Glasgow, Ky. A difficulty arose between Charles Frazier, colored, of this city, and another negro and the latter shot at Frazier. Frazier was not hit, but one bullet struck the woman sitting behind him, inflicting fatal injuries.—Clarksville Leaf-Chronicle.

## Old Poles Removed.

Dr. J. A. Young's horse, while hitched to an unused telephone pole in front of Mr. E. Wood's residence, pulled the post down, breaking it off at the ground. Fortunately no one was hurt, but the Cumberland Telephone Co. at once began taking down this row of poles, no longer using them, having been located on another street.

## DON'T BE LEFT.

Tomorrow The Alfalfa Special Train Will Come.

## Died of Epilepsy.

Elizabeth Torian, an inmate of the Asylum, died of epilepsy last Tuesday, aged about 35 years. Her body was sent to Paducah for burial.

Tomorrow is the day for the Alfalfa and Corn Special to arrive here. The farmers in large numbers are expected to take advantage of this opportunity to learn something to their advantage. Remember that you will be "left" if you are not at the L. & N. station promptly at 8:45 in the morning. The train will remain only half an hour. Reports from different sections of the State already visited by the special say that at every stop the farmers have gathered in crowds and have expressed themselves as well pleased with what they have seen and heard.

An interesting feature of the special train will be the exhibits of corn gathered from all over the State and of alfalfa actually growing. At all stops, the farmers will be invited aboard the train to examine the exhibits, which will be demonstrated by the experts.

Besides Commissioner Vreeland the others aboard the train are: R. C. Grenshaw, Assistant Commissioner of Agriculture; Joseph E. Wing, of Mechanicsburg, O., an alfalfa expert; Professor P. G. Holden, of Ames, Ia., Commissioner of Agriculture of Io., who in one year increased the corn production of Iowa ten million bushels; D. L. Duncan, a New York farming expert; Willis Wing, of Ohio; Professor Scherflins, of the Agricultural Experiment Station at Lexington, and R. R. Giltner, of Eminence.

W. W. Barret, of Henderson, is the representative of the Louisville Commercial Club on the special, and makes the trip in the interest of the coming State Development Convention to be held in Louisville in October.

## K. OF P. TO-NIGHT.

Last Meeting Before Grand Lodge Comes.

Evergreen Lodge, No. 38, Knights of Pythias, will meet at 7:30 o'clock to-night, and as it will be the last meeting that will be held before the Grand Lodge holds its session here, a full attendance of our membership is desired.

Looking Ahead.

**IMPORTANT NOTICE!** If you want to go into a new business this Fall and Winter that requires no RISK OR CAPITAL, easy work, NO CANVASSING, and actually taking but an hour's time each day, send us \$3.00 for our Famous Family and Club Collection, (6) which retails through agents for \$5.00, to be shipped this Fall or next Spring, as you wish, and you will sell out FREE. There is nothing like it has ever been known before. As the future begins to loom up in perspective, we discern indications that next year will keep pace, if not leap beyond, 1905 in the way of the city's growth and development.

The more optimistic imagine that they will in a year and a half hear the clang of the electric car going, and even now are speculating as to which side of the city the long needed park will be located on.

We would not dissipate such dreams. They are not utopian—we believe that soon they will be realized. Hopkinsville has grown up to such great things and we believe we will have them. They will come as naturally "as the sparks fly upward." At the advanced age of a hundred years Hopkinsville seems to be in the heyday of its youth, so to speak, but in a few more years it will be a Titan in many ways.

One of the good things that the L. & N. has in store for us next year

is a larger passenger station and train shed. Mr. J. W. Logsdon, the superintendent of this division, was in the city last week and gave to this paper the assurance that, as soon as practicable, his company intends to enlarge the passenger station here to such dimensions as will accommodate the greatly increased passenger traffic. In addition to this he says that the company will erect a train shed, covering its tracks in front of the station at the opposite side of the road and extending the full length of its property from Seventh to Eighth street. This will be glad news to all—the stay-at-home as well as the traveler. Mr. Logsdon, who is one of the most popular railroad men here "that ever came down thepike" has long seen the necessity of these improvements,

but, owing to so much other work along his system, he has not yet been able to carry out his plans. When "John" says a thing he means it, and you can just put it down as an accomplished fact when he—like to have said "gets a move on himself," but he always has—that well, he will do it. When he gets through with this undertaking we will have a passenger station about double its present capacity, properly heated in winter and far more comfortable in summer. Then when a storm rages the traveling public can pass to and from the trains without being drenched with rain or covered with falling sleet or snow. When these things are given us then will the people rise up and pronounce John the best of all.

Pain from a Burn Promptly Relieved  
by Chamberlain's Pain Balm.

Mr. James N. Nichols, a merchant and postmaster at Vernon, Conn., makes the following statement: A little child of Michael Strauss was overcome in great distress by a burn on the hand, and as cold applications only increased the inflammation Mr. Strauss came to me for something to stop the little one's pain. From the many liniments I carry in stock, I advised him to use Chamberlain's Pain Balm, and the first application gave instant relief. Since then I have used it myself and recommend it very often for cuts, burns, strains, and lame back, and have never known it to disappoint. For sale by L. L. Elgin and Anderson & Fowler, the up to date druggists at Hopkinsville.

## GOVERNMENT FIGURES.

Independent Systems Now  
Have 2,000,000 Subscribers  
and 5,000 Systems.

The conservative capitalization of the independent telephone companies of the United States is shown in Bulletin No. 17 on telephones and telegraphs, issued by the Department of Commerce and Labor for the year 1902. The statistics available are two years old, and during the past two years the independents have made a wonderful increase in the number of exchanges, in telephone instruments in use, and the number of miles of wire used for long distance work. In fact, during the past two years the independents have forged ahead faster than the Bell, says "Telephone Development" of Boston, Mass.

Following are extracts from Bulletin No. 17:

The returns for the American Telephone and Telegraph Company include the data for 43 licensees companies in whose financial transactions it has a material interest, in many cases owing a portion of the capital stock, sufficient to secure absolute control.

The so-called Independent companies include all systems and lines controlled by corporations, companies or individuals acting entirely independently of the American Telephone and Telegraph Company.

The Commercial systems control the large proportion of the wire and telephones operated by the Independent systems, and their development is the important feature in the growth of the independent movement.

Table 34, showing the distribution of existing independent commercial systems, according to the year in which established, indicates the rapidity of the growth of this feature of telephony.

The rapid increase in the number of independent commercial systems dates naturally from 1883, when the Bell patents expired. During the nine years from 1894 to 1902 inclusive, there were 3,039 such systems established.

The relative importance of the American Telephone and Telegraph Company's systems and the independent systems is indicated by the following:

Bell.	Ind.	
No. of Systems.....	44	4,107
No. of Subscribers 1,222,327	956,039	
No. of Public Ex-		
changes.....	3,753	6,698
Switchboards, To-		
Tal No.....	3,820	7,076
Manual Com. Bat.		
(Central Office).....	356	481
Magneto.....	3,463	6,542

In 1902, the independent, commercial and mutual systems reported 1,462,562 miles of wire and 998,119 telephones. In addition, the independent farmers' lines reported 55,747 telephones, making a total of 1,058,866 telephones as compared with 1,317,178 telephones operated by the American Telephone and Telegraph Company and its licensees.

The systems controlled by the American Telephone and Telegraph Company operated 69.8 per cent. of the wire mileage and 56.9 per cent. of the telephones reported by all the systems.

The independent systems operated 7,076 switchboards of all kinds, as compared with 3,820 operated by the Bell systems.

The American Telephone and Telegraph Company reported a far greater number of pay stations than did the independent systems, but the latter operated nearly twice as many public exchanges as the former.

Of the total number of public exchanges or central offices, the independent systems operated 6,608 or 63.8 per cent. and the American Telephone and Telegraph Company's systems 3,753 or 36.2 per cent.

The independent systems operated exchanges in all the States and Ter-

ritories, with the exception of the District of Columbia and Utah, and the American Telephone and Telegraph Company's systems operated exchanges in all except Indian Territory.

As reported, the local talk amounted to 97.6 per cent. and the long distance and toll talk to 2.4 per cent. of the total.

The commercial telephone messages sent during the year 1902 were less than 1-56 of the telephone messages, and the pieces of first-class mail matter that passed through the mails during the same year were not quite as many as the telephone messages.

The rapid development of the telephone industry necessitates a large expenditure for new construction. In order to ascertain the expenditure on such work during a period of twelve months, an answer was required to the inquiry: "Cost of lines, real estate, equipment, etc., added during the year, whether by purchase or by construction?" The sum of the amounts reported in the year 1902 was \$51,903.02.

### The Physical Equipment.

The switchboard is the most important feature of the "central," the success of the entire system depending on its proper operation. Switchboards are classed as Manual or Automatic.

The manual switchboard, which is in more common use, is operated by the hand of the operator, who connects the lines of two subscribers at the central office by means of a pair of flexible insulated wires or cords in accordance with the oral request of one of the subscribers. There are two main classes of manual boards:

### The Commuter-Battery or Central- Energy board, and the Magneto board.

The automatic switchboard is one operated by the subscriber who, by using a device attached to the telephone, makes connection with the line of the person with whom he desires to converse, without the intervention of an operator at central.

While there has been a wide extension of the telephone service in the rural districts, the industry naturally shows the greatest development in the states having the greatest population and is carried to the highest point in the large cities. Of the 1,051 incorporated places in the United States having a population of 4,000 or over 1,002 are provided with telephone facilities. In 137 of these places, there is located only a telephone exchange controlled by a company operating independently of the American Telephone and Telegraph Company. In 414, there is located only an exchange controlled by that company, and in 451, there are exchanges controlled by both classes of companies.

Few industries have undergone a more violent transition from a centralized control of production so unlimited manufacture of apparatus than telephony, and the period of greatest activity began with the census year 1900. Having, after tremendous expense litigation, established the supremacy of its patent, the American telephone system enjoyed for some years complete possession of the field, but the moment these patents could be assumed to lapse, competition broke in from every quarter, with the result that the industry has of late undergone an extraordinary development, doubling its figures from year to year, and, in witnessing a thorough revolution in methods, apparatus, and rates.

Beginning about 1894-1895, "Independent" telephone exchanges sprang up like mushrooms all over the country, particularly in the Middle and Northeastern States, and by 1900-1901 they had attained a total of about 2,750 exchanges, with 700,000 subscribers and an investment of \$150,000,000, apparatus being furnished by at least three score manufacturers."

The same journal gives the following figures to show the present status, (1905):

### Status of Telephone Industry

The status of the telephone industry today is shown approximately by the following statistics (1905):

### "ROSH HASHONA."

The Jewish New Year Begins

Tomorrow Evening

at Sunset.

"Rosh Hashona," the Jewish new year, will begin Friday evening at sunset, and the occasion will be celebrated by every person of Hebrew descent in the world. After Yom Kippur, the feast of the passover, it is the leading holiday of obligation.

The feast was instituted by Moses at the command of God in the time of the journey from Egypt to the promised land, the command being registered in both Numbers and Leviticus, Moses being ordered to institute a Sabbath on the first day of the seventh month, Tisri, when all of the people were to be summoned and the advent of the new year to be announced by the blowing of horns, whence the name, "Rosh Hashona."

### Incredible Brutality.

It would have been incredible if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son, "My boy," he says, "ent' a fearful gash over his eye, so I applied Bucken's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25¢ for R. C. Hardwick's drug store.

## HOME COMING WEEK'

Louisville Commercial Club  
After Former Kentuckians.

Did you know that the last census shows that there are over six hundred thousand Kentuckians living in other States?

Well, it's a fact.

How many of these former Kentuckians do you know?

The Commercial Club of Louisville wants the names of as many of these as it is possible to get. It desires to extend invitations to every Kentuckian who has moved away to come back next spring and attend the "Home Coming Week" festivities at Louisville.

Plans are rapidly maturing for this great event. The Commercial Club hopes to make it a red letter week on Kentucky's historical calendar. There will be "something doing" seven days and nights and then the crowd will disperse and go to different parts of the State to remain as long as the low railroad rates are in effect, as the arrangement made with the railroads will include a low rate to all points of Kentucky for "Home Coming week" in Louisville.

If you have any friends or relatives who have moved to other states, please send the names and addresses at once to the Commercial Club, Louisville, Ky.

## LOCAL SQUIBS

The Carnival Co. will come here over the I. C. road from Paducah.

People are beginning to lay in their coal supply for the winter.

There is talk of organizing a grangers' protective association.

Hopkinsville has been "long" on everything this year but cures.

Wagons loaded with coal from the mines pass through the streets daily.

Farmers should be thinking of bringing in some of their products for the exhibit next week.

The rear and side walls of the Y. M. C. A. building will soon be up to the second floor.

A handsome monument is to be erected over the remains of the late E. W. Henderson.

There are lots of calls for vacant houses, and so far as our information goes not one is to be had.

Don't borrow your neighbor's Kentuckian the year round. If you can't get along without it, subscribe.

The fronts of the First National Bank and the building adjoining have been repainted.

There will be a sale of unclaimed express packages next Monday. If you want to get rich—

Hotel Latham will be crowded next week, but Capt. Whitlow has reserved some of his rooms for travelers.

The work of remodeling the interior of the store at Main and Eighth streets is going on, and when completed it will be entirely new.

You need not now fear the bite of the mosquito, as the papers say the yellow fever germ theory has about been exploded.

"Are we going to have street cars?" is the common question now. Mr. Bell has 75 days in which to commence work. This is all we can tell you.

There was a great rush of school children to Keach's furniture store Tuesday. That enterprising firm gave away twelve dozen lunch boxes.

The weather, especially at night, is delightfully cool. The lowest temperature was 42 degrees—one night last week.

Why not try sprinkling the streets with coal oil? It is now used to a great extent in cities. One sprinkling lasts for weeks.

Not try sprinkling the streets with coal oil? It is now used to a great extent in cities. One sprinkling lasts for weeks.

The badges to be worn by members of the Hopkinsville Lodge Knights of Pythias during the session of the Grand Lodge in this city next week, have arrived and are very handsome and costly.

**Cheaper Rates Southwest.**

Less than one-way fare for the round trip on Oct. 3 and 17, Nov. 7 and 21, Dec. 5 and 19. To points in the Southwest, via Cairo or Memphis and Cotton Belt Route.

## EATING BY PROXY.

"I pulled down the feed of my life the other day," observed the cheerful and烹调家-like, hebo on a shady bench in Franklin square a few evenings ago. "I've been up and down the line for a half huff of mœufs, but the way I got that sit-down was as queer an experience as I ever had."

"I was padding through a little park up on the north side of town, when a tall, thin, sallow man, middle-aged, gave me the greet:

"Hello, there," said he to me. "How's thy?"

"Well," I said back to him. "I just naturally hate to think of the things I could do right now to a slaughter house steak the size of a vestibule mat—smothered in onions, well, say, with a tall stack of frizzled spuds to come, and a half leg of mœufs and Javis gravy to follow."

"After leaving the meat market he led me into the basement way of a tapply-looking house.

"'Hello,' said the sallow man, eyeing me in a peculiar way. 'Come on, then, and we'll see if we can't pad you out some!'

### WHY IT SUCCEEDS.

Because It's for One Thing Only, and Hopkinsville is Learning to Appreciate This.

Nothing can be good for everything. Doing one thing will bring success. Doan's Kidney Pills do one thing only. They cure sick kidneys. They cure backache, every kidney ill. Here is Hopkinsville's evidence to prove it.

Mrs. J. T. Johnson, wife of J. T. Johnson, superintendant of streets, living at 615 North Main street, says: "During the latter part of last summer I noticed growing upon me a dull aching across the small of my back which kept getting worse until finally I had to remain so severely ill I was hardly able to get around, and many times could not attend to my household duties. The trouble I believe came from my kidneys for I suffered from other distressing symptoms of complaint. I was subject to frequent attacks of dizziness. I learned about Doan's Kidney Pills and my husband got a box for me. They did me wonderful amount of good. I feel much better and stronger in every way than I had for some years. I do not know what I should have done if it had not been for Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The campaign for control of the New York City administration has begun.

### Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on the plan. Take it when you have a cold and it will stop the cough, open the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price 50 cents. Large size, 50 cents. Anderson & Fowler, the up to date druggists at Hopkinsville.

Thos. Demoss, a C. & G. section foreman, was killed by a train near Foster, Ky.

### Neglected Colds.

Every part of the mucous membranes, the throat, ear, head and lungs, etc., are subjected to disease and brought about from neglected colds. Ballard's Horehound Syrup is a pleasant and effective remedy.

W. Akendrick, Valley Mills, Tex., writes I have used Ballard's Horehound Syrup for coughs and troubles; it is a pleasant and most effective remedy." Sold by Cook & Higgins.

Jealousy caused a man at Duluth to shoot his wife and a saloonkeeper.

### Chamberlain's Pain Balm.

This is a liniment, remarkable for its great power over pain. It quickly allays the excruciating pains of rheumatism and makes sleep and rest possible. For sale by L. L. Elgin and Anderson & Fowler, the up to date druggists at Hopkinsville.

The courthouse at New Madrid, Mo., was destroyed by fire, believed to have been incendiary.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion. For sale by L. L. Elgin and Anderson & Fowler, the up to date druggists at Hopkinsville.

At Harpersfield, O., a man shot his wife and himself.

### Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and will assist you in your diet.

Mrs. Wm. M. Strong, Mt. Lothian, Tex., writes May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria.

Sold by Cook & Higgins.

### Farm For Sale.

I will sell at public auction on **TUESDAY, Oct. 10.**

on the premises, near Howell, Ky., my farm of 250 acres, well improved with personal property thereon, including machinery, implements, live stock, corn, tobacco, etc. Terms made known on day of sale. All terms on land. The farm will be sold in part or as a whole.

JOHN W. TERRELL.

### SOCIETY OF EQUITY.

A Word to Farmers About New Plan of Organization.

The National Union of the American Society of Equity wants 1,000 members in each county to start a clearing house in every county.

You will raise the crop, this clearing house will telephone you where and where your crop is needed. A controlled market will control the price of tobacco, wheat and every thing grown on the farm.

The American Society now is sending in their crop reports on tobacco.

This is national. It will give the growers some idea as to what the farmer will grow and as to stock in warehouses and not to raise a crop that the market doesn't need.

One local union I organized March 16th, 1904, has made \$10,500, so writes Mr. L. T. Kittinger, Secy. Local Union No. 1, Goshen, Ky.

Other locals uniting in a county union, though in a more advanced stage of organization, emancipated and wasted and broken-down with all the terrible symptoms of hacking coughs, night-sweats, hectic fever, absent-mindedness, etc., have been restored by the use of this marvelous medicine to permanent health, strength and vitality.

It is remarkable how in time before the lungs have been filled with tubercular deposits, or have actually begun to break down.

Dr. R. E. Price, Buffalo, N. Y.:

"Dear Sir—I wish to speak as to the benefit received from Dr. Pierce's Golden Medical Discovery. When I first came to Buffalo, I caught a bad cold which settled in my lungs. I was subject to frequent attacks of dizziness. I learned about Doan's Kidney Pills and my husband got a box for me. They did me wonderful amount of good. I feel much better and stronger in every way than I had for some years. I do not know what I should have done if it had not been for Doan's Kidney Pills."

It is remarkable how in time before the lungs have been filled with tubercular deposits, or have actually begun to break down.

Dr. R. E. Price, Buffalo, N. Y.:

"Dear Sir—I wish to speak as to the benefit received from Dr. Pierce's Golden Medical Discovery. When I first came to Buffalo, I caught a bad cold which settled in my lungs. I was subject to frequent attacks of dizziness. I learned about Doan's Kidney Pills and my husband got a box for me. They did me wonderful amount of good. I feel much better and stronger in every way than I had for some years. I do not know what I should have done if it had not been for Doan's Kidney Pills."

# WHY BUCK'S HOT BLAST

## Heater Will Actually Pay For Itself.

Because Buck's Hot Blast will produce as much heat and as satisfactory a fire in every way, by using the cheapest dollar and a quarter coal, slack or screenings, as other heaters in which you must use high grade soft coal or hard coal. You can see at a glance how soon this saving in fuel will make a Buck's Hot Blast actually pay for itself. It is not the first cost of a stove that counts so much, it is what you have to pay to feed it, in coal.

This is the "Buck's Stove."

### Abscess.

Abcesses, with few exceptions, are indicative of constipation or debility.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I went to say a word of praise for Ballard's Snow Liniment. I had a sore knee which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c bottle, and it cured my leg. It is the best liniment in the world. Sold by Cook & Higgins."

President Wm. R. Harper, of the University of Chicago, has been again under the knife. Drs. J. B. Murphy and Arthur Bevan performed an operation for "intestinal retention." It is asserted that the operation was of a minor character, but reports about the Harper home are that the patient is very sick man.

### The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble.

In a recent letter, he says: "I was given a 50c bottle of your great Electric Bitters, which cured me. In consider them the best medicine on earth, and thank God who gave you the knowledge to make them. "Sold and guaranteed to cure Dyspepsia, Biliousness and Kidney Disease," by R. C. Hardwick druggist, at 50¢ a bottle.

Following the admission of John A. McCall, President of the New York Life Insurance Company, that he gave \$48,000 to the Republican campaign fund in 1904, several large policy holders have written to McCall demanding his resignation, upon the ground that he is an unsafe man to handle other people's money.

### WAS A VERY SICK BOY

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in all cases. For cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by L. L. Elgin and Anderson & Fowler, the up to date druggists at Hopkinsville.

The Republicans of Carter and Elliott counties have nominated Rev. Jno. E. Thornberry, a Baptist preacher, for representative. The district is largely Republican.

As a dressing for old sores, bruises and burns Chamberlain's Salve is all that can be desired. It is soothing and healing in its effect. It allays the pain of a burn almost instantly. This salve is also a certain cure for chapped hands and diseases of the skin. Price 25 cents. For sale by L. L. Elgin and Anderson & Fowler, the up to date druggists at Hopkinsville.

## A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disorder called LIVER.

THIS IS A FACT  
which may be demonstrated  
by trying a course of

## Tutt's Pills

They control and regulate the LIVER  
They bring hope and buoyancy to the  
mind. They bring health and elasticity  
to the body.

### TAKE NO SUBSTITUTE.

Jesse Hughes, a young boy of the county, was adjudged a lunatic this afternoon by a jury in the circuit court and ordered to the asylum. He will be taken to Hopkinsville tonight. Hughes is 21 years of age and a son of Mrs. Susie Hughes and the late Robert Hughes. He was accompanied to Hopkinsville by his uncle, Henry Cunningham.—Paducah New Democrat.

### Sprains.

S. A. Read, Cisco, Tex., writes, March 11, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I earnestly remand it So any one suffering from sprains, sold by Cook & Higgins."

Mrs. John B. Brown, wife of a bookmaker, was dragged into an alley in Louisville by a negro, who took \$33 from her stocking and fled. She fought him as long as she could and then bravely chased him through the dark alley.

#### Amusement Notes.

The Paducah Register has the following to say concerning the Fiske-Stock Company, which appears at Holland's Opera House Friday and Saturday nights of this week, with matinee Saturday:

"There was another appreciative gathering at The Kentucky last night to witness and enjoy the entertainment presented by the Fiske-Stock Company. Like its other presentations the company last night added new laurels to its career. A number of new moving views were presented along with those of a local character, and the combination made a very attractive entertainment. The vaudeville part of the bill was most admirable, the specialists all being first-class and of such character as to win liberal applause. It is not putting it in the least too strong to say that the Fiske-Stock moving world is the best entertainment of its kind ever seen here."

#### "The County Chairman."

"The County Chairman," which appears at the Opera house next Monday night, possesses many novel features and an extremely large company is used in its interpretation. The cast is headed by that admirable character actor, Theodore Babcock, who brings to his delineation the fruition of his long and varied experience in the drama. George Thatcher plays the negro in such a way that his work calls for but one word-admirable. Others in the cast are Herman Leib, Richard J. Dillon, James H. Bradbury, Ruby Bridges, Laura Ayres, Zenaida Williams and Florida Kingsley.

#### Colt Show Monday.

I will have a colt show in Hopkinsville Monday, Oct. 2. All breeders of my stock are invited to enter their colts. There will be premiums given—one on L. A. D. and two on jacks colts.

## CARNIVAL NEXT WEEK.

Parker Amusement Co. and  
Its Temple of  
Music.

One of the most prominent and pleasing tented entertainments to be seen on "Parker's Pike" at the carnival, is the Temple of Music, without a doubt the largest array of costly musical machinery ever used by any musician, and one that is bound to satisfy the music-loving public's curiosity in a way that will leave a lasting impression.

Seven great nations of the world have contributed to this great musical exhibition, their stores of musical genius, representing the gifts and master minds of the greatest musical inventors of ancient and modern times. Among the notable instruments used are those from Gothenburg, Sweden; Honolulu, Hawaiian Islands; Rome, Italy; Honduras, South America; Tokio, Japan; Constantinople, Turkey, and St. Petersburg, Russia.

The rendition of "The Palms" on the Swedish Harmonion, by Mr. Chas. and Miss Kittie Willard, is really worth the price of admission in itself, regardless of the additional program presented.

#### New Church.

The new Christian church at Murray, Ky., is almost completed. It will be dedicated on Sunday, Oct. 8th. Elder Z. T. Sweeney, of Columbus, Ind., will deliver the address. Elder Sweeney is a preacher and lecturer of national reputation. Very great interest is being manifested, and many visiting brethren and friends are expected to enjoy the occasion. The dedication will be followed by a protracted meeting.

The new building is of pressed brick and stone, with slate roof. The towers are 100 and 60 feet high respectively. The house is 90 by 45 feet and contains, besides auditorium, Sunday school room, study, class room, baptistry, etc. A balcony and basement will be completed later. The entire cost will approximate \$20,000.

#### SQUAD OF 21

Gone to Indiana to Labor in  
Concrete Works.

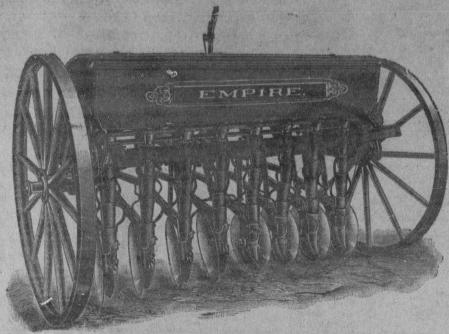

Mr. Joseph Poindexter left yesterday with a squad of 21 colored men. They went via Louisville to some part of Indiana to accept employment in concrete works.
